F4LIFE – MESSAGE FOR PROMOTING THE INTERNATIONAL SURVEY

Dear Feldenkrais colleagues,

We are happy to inform you that ETC – EuroTAB Council – supports *Feldenkrais4Life*, the first European funded project that intends to sustain the work, the professionalism and the identity of Feldenkrais Practitioners throughout Europe!

The project was promoted by the Associazione Italiana Insegnanti Metodo Feldenkrais - AIIMF in partnership with:

- Feldenkrais-Verband Deutschland e.V. (FVD)
- Italian Fibromyalgia Syndrome Association – AISF
- International Feldenkrais Federation - IFF

This is a very important achievement!

In the history of our Associations/Guilds, this is a first opportunity to act together internationally with a shared goal of growth, visibility and greater recognition.

The project, approved within ERASMUS+ program of European Union (February 2024-January 2026) is named '*Feldenkrais4Life - Supporting the professional growth of the Feldenkrais Teacher as a key player in society for the development of health and integrated personal care*'.

Would you like to contribute to the success of the project?

Take part in *the international survey* that Feldenkrais4LIFE has just launched! It will provide a first comparative picture of how Feldenkrais teachers practice in different member states and how they see themselves and their work as professionals in relation to the European context.

The survey is completely anonymous, available in 4 languages (English, Italian, German, French), and addressed to teachers in all European countries - whether members of a national Guild/Association or not.

Would you like to receive the results and stay tuned with the project activities?

Subscribe to the newsletter and follow the project <https://forms.gle/kUgaAxAquJLoQaow8>

We would be happy if you would help us spread this important news to your colleagues, members and non-members, working in Europe.

Hoping to meet you soon at Feldenkrais4LIFE activities

Kind regards

Andrea Melita Thiem, ETC Vice-Chair
